Weakest Battery Of the Artillery End Responsible For the Loss

Says He Was Paid \$500 To Murder Los Angeles Woman

By Associated Press.
SAN DIEGO, Oct. 9.—Two Los Angeles newspapermen were arrested by Mexican authorities at Tia Juana today while searching for \$500 which Burr Harris, the negro murderer of Rebecca Gay of Los Angeles said he received for committing the crime, and buried. Harris furnished the newspapermen a map, but before they had searched long they were arrested. It is believed they will be released today.
LOS ANGELES, Oct. 9.—The police decline to say whether Harris told the names of the persons he asserts gave \$500 for the murder of Mrs. Gay. Finding the money, they said, would pave the way for a further arrest immediately. The police have the name of another negro, said to have delivered the money to Harris, acting for the actual instigator of the crime.

CARBONATE, THE NEW SILVER LEAD CAMP IN DEATH VALLEY, COMPLETES WAGON ROAD AND BEGINS MAKING REGULAR SHIPMENTS

"Business is looking up in the southern country tributary to our lines," remarked Frank M. Jenifer, general freight and passenger agent of the Tonopah & Tidewater railroad, from Oakland, who is here on one of his regular visits checking up on the commercial requirements of Tonopah.
"From Ryan, the terminus of our line in Death valley, where they have been shipping borax ever since the

MAN KILLS LION SINGLE HANDED WITH A ROCK

RANCH HAND NEAR SANTA MONICA WILL RECOVER FROM INJURIES.

(By Associated Press.)
LOS ANGELES, Oct. 9.—Edwin Ertelbe, a ranch hand, is in a serious condition as the result of a fight yesterday with a mountain lion in the Malibu mountains, north of Santa Monica. Fellow workmen found him unconscious by the side of a dead lion. He had a rifle but had no chance to use it, as the beast sprang out suddenly and was killed with a rock. Ertelbe was badly torn, but probably will recover.

BEAR AND CUBS KILLING STOCK IN ELKO COUNTY

The Elko Free Press says a full grown brown bear with two little cubs is affording trouble for the ranchers and stockmen in Starr valley, according to reports received from that section. Bruin and her cubs have defied capture thus far, although several hunting expeditions have taken the field in an effort to capture or kill the animals.

Burn a House On Finding Rat

By Associated Press.
SEATTLE, Oct. 9.—Health Commissioner Crichton ordered today the destruction of a three-story frame lodging-house on the waterfront because a bubonic plague rat was caught there. He said he may raze the adjoining buildings.

MONARCH OPENS A QUARTZ VEIN WITH GOOD VALUES

FOUND ON THE 1011 CROSS-CUT WHERE A DRIFT WILL BE STARTED.

Upon invitation of H. C. Brougher, president of the Monarch Pittsburg Mining company, a representative of the Bonanza visited that property this morning and was agreeably surprised to find a remarkable showing. It has long been the opinion of many of the local geologists that the Monarch would have to sink to a depth of 1400 or 1500 feet because of the faulted zone and downward throws along the west side of the old graveyard.

This theory has been upset to a considerable extent by the discovery of the Murray vein at a depth of 750 feet in the New Extension shaft and the new vein opened up on the 1000 level of the Monarch. The new find in the Monarch is a rhyolite quartz vein, the width of which is 27 feet, with no foot wall in sight, and assays taken from an eight-inch streak will run from \$20 to \$30.

This vein was discovered in the 1011 cross-cut, 325 feet west of the shaft, and has a northwesterly and southeasterly strike with a northerly dip. Aside from cross-cutting to ascertain the width, no work has been done, but a drift will shortly be started, when each day's operations will be watched with keen interest by those interested in the various western properties.

COLUMBUS DAY OBSERVED ON MONDAY NIGHT

KNIGHTS OF COLUMBUS HOLD EXERCISES, CLOSING WITH A DANCE AT THEIR HALL.

Tonopah council No. 1160, Knights of Columbus, will celebrate the anniversary of the discovery of America with exercises at their hall on Brougher avenue next Monday evening. After the literary portion of the program is disposed of the floor will be treated to a dance, with special music. The regular anniversary falls on Sunday, but as it is a secular holiday, the Knights prefer to celebrate the following day.

The introductory address will be delivered by Frank P. Mannix, grand knight, and Mrs. E. A. Kelliber will render a vocal solo. The eulogy of Columbus will be by Hon. M. R. Averill, after which Miss Ethel Murphy will render a piano solo. Other musical numbers will be a vocal solo by Mrs. William Grimes and a quartette consisting of Mrs. M. J. Murphy, Mrs. T. B. Flood, W. M. Roach and J. S. McElm. Attorney J. E. McNamara will speak on "Our Order."

The arrangements are in the hands of M. M. Buckley, W. M. Roach, T. J. Dwyer, J. P. Stenson, J. H. Troy and H. H. Bergman. Every member of the council will consider himself a member of the reception committee.

Certificates of location, on sale at the Bonanza office.

Signal Rebel Victory at Torreon Confirmed By Late Advices

By Associated Press.
MEXICO CITY, Oct. 9.—The evacuation of Torreon by federals was confirmed today by Minister of the Interior Aldaba, who said Generals Aubert, the commander, Munguia, Bravo and Escudero are now at Hypolito. The latter three, according to the minister, will be court-martialed for the evacuation. The report that Aubert had gone over to the rebels is discredited. Execution by rebels of Federal General Alvarez and staff and troops has been confirmed.

EXPERIMENTAL FARMS FOR NYE COUNTY IN THE EXTREME SOUTHERN DISTRICT. WILL BE ESTABLISHED BY RAILROAD

The Tonopah & Tidewater Railroad company is embarking on a program of farm development that will surprise most people who imagine the southern country between Rhyolite and Ludlow is nothing more than a waste of sands fertile only in mineral wealth.

Frank M. Jenifer, general freight and passenger agent, is authority for the statement that his company is going to establish experimental demonstration farms at several points where the underflow of the Amargosa river may be tapped, wells sunk and pumps installed at a cost that will promise good returns on the investment. The Tidewater is looking forward to the time when the opening of the Panama canal will bring to Nevada and the adjacent parts of California large numbers of settlers.

The first experimental farm will be started at Leeland, 25 miles south of Beatty, in Nye county, Nevada, where five acres will be set out in fruit, small grains and vegetables, just to prove the soil has all the elements of fertility. At Leeland there is a well 200 feet deep where the first flow of water was struck at 90 feet. There is at the present stage 119 feet of water in this well, leaving only a raise of 90 feet for the pumps to overcome. That there is little doubt of the water diminishing is proven by the existence of 85 feet of water-bearing gravel that insures a constant supply.

The Amargosa river is one of the famous dry channels of the desert country, which seldom carries any flow on the surface, but retains it beneath, where there is no loss from seepage or evaporation. Nature seems to have been kindly disposed by making provision against the intense heat and conserving the streams that run steadily southward from the vast watershed that rolls down gently to the railroad. Test borings have demonstrated the existence of an abundance of water all through this arid section at depths varying from 40 to 90 feet and the railroad company is going to try out the problem to the satisfaction of the management before inviting the attention of settlers.

The experiments will be conducted along strictly scientific lines and the weather bureau will be asked to establish an observer's station to furnish official facts concerning precipitation, sunshine and temperature at all seasons.

At Silver Lake, on the line between San Bernardino and Inyo counties, California, the Tidewater is shipping in drilling outfit for the purpose of putting down test wells and establishing the fact that water in commercial quantities for irrigation may be had in that quarter.

The theory of the engineers and farm experts is that semi-tropical products, early vegetables and fruits can be raised there in sufficient quantities to supply all the demands of the mining camps of Goldfield and Tonopah, which is now met by shipments from the coast counties of southern California.

Water has been taken from the Mayflower, but the Pioneer could not make any satisfactory contract with that company for a permanent supply, owing to the Mayflower figuring on resuming milling operations on its own account.

SULZER TRIAL ARGUMENTS. ALBANY, N. Y., Oct. 9.—Final arguments in the Sulzer trial were heard today. Attorney Marshall said three fundamental charges relate to acts completed before Sulzer performed the duties of governor.

Unusual Storm Damages Fruit. ROSLYN, Wash., Oct. 9.—A snow storm last night broke all records of this locality for the time of year. Thousands of dollars' damage resulted, particularly to apples. Other fruit and shade trees suffered, and telephone and telegraph lines are prostrated.

By Associated Press.
PEKING, Oct. 9.—Friendly intentions of the Chinese government toward foreign interests will be strongly emphasized tomorrow by President Yuan Shi Kai's inaugural address to parliament. Among other things he will say:

"I declare all rights, privileges and immunities enjoyed by foreigners in China by virtue of international engagements, national enactments and established usages are hereby confirmed."

TEMPERATURE REPORT.
Highest temperature yesterday, 57 degrees; a year ago, 52.
Lowest temperature last night, 34 degrees; a year ago, 31.

POLO GOUNDS, NEW YORK, Oct. 9.—Bush, Connie Mack's find during the middle season in the Great Falls (Mont.) club union association, held New York down to two runs and five hits, while his teammates made eight. Seven of these, by Tesreau, yielded eleven hits.

Schang's home-run was the best Philadelphia could do with Crandall. Bush struck out four, Tesreau three and Crandall one. Bush walked three and hit one.

In the first inning Murray and Oldring singled, Collins singled after two strikes, Oldring going to third. Baker singled after two strikes, bringing Oldring home, while Collins held second. Collins and Baker each made a double steal and Melvin fanned.

Collins and Baker came home when Fletcher threw Strunk's grounder into the grandstand. Barry flied out. In the second, with two out, Murphy singled, then Oldring singled, Murphy going to third. Oldring stole second and both scored on Collins' single. Collins also stole second when Doyle grabbed Baker's smash.

POSTOFFICE OPEN TO 6 P. M. TO ACCOMMODATE PATRONS

Beginning today the hours at the postoffice are from 8 a. m. to 6 p. m., instead of from 8 to 5 o'clock, as has been the case since the enforcement of the eight-hour rule. Owing to the great number of men who get off shift at 3:30, Postmaster Stewart found it was impossible for many of them to attend to matters at the postoffice without subjecting themselves or their families to some inconvenience. The hour and a half remaining between quitting work and the closing of the office worked a hardship on many citizens, and on representation of the circumstances to the department, Mr. Stewart was authorized to change the hours so as to provide for an extension of the service to the end of the regular business hours.

The business of the office is transacted with less friction than at any other office of the same class, and with the rapidly growing mail it is merely a matter of a short time before more help will be required. The business now is taken care of by six clerks, the postmaster and his assistant. The parcels post business is expanding, but deliveries are made without any delay. In some of the offices, such as Ely, the postmaster has notified patrons that parcels cannot be delivered until the day after they are received. This delay is ascribed to the recent order calling for the weighing of all mail for a readjustment of the compensation of star route contractors. In Tonopah no delay from this cause has been found necessary.

A remarkable feature of the service was the receipt yesterday of 25 C. O. D. packages, sent out by a Tonopah firm to patrons at other points. This indicates the growth of buying in local stores by persons from outside camps.

The improvement in the money order business shows no signs of abatement, as the following table will show:

In August 1510 money orders for domestic points were issued for a total of \$24,752.35, paying fees of \$130.95, compared with \$27,398.61 for September. In the same month 366 domestic money orders for \$7401.44 were paid, compared with \$3212.44 for the month of September. One international order for \$98.83 was paid in August and four were paid in September for \$164.08. International orders to the amount of \$5332.88 were issued in August and 138 orders for \$6499.64 for September.

TONOPAH PICKS PHILLIES TO WIN THE GREAT SERIES

Betting is growing with the progress of the baseball series, and most of the local money is going up on the Athletics. At every saloon and brokerage office, on the streets and in places of business odds are offered freely, based on the eastern betting. Some good stiff bets were placed early this morning on the Athletics, in spite of the fact that they were going to play in the camp of the enemy. When the batteries came in over the wire there was general hedging by those who felt like placing their money on the Giants.

NEW SCHOOL FOR WELLS. At a meeting of the county commissioners a resolution was passed authorizing the sale of \$12,000 of bonds for the building of a new high school at Wells. The bids will be asked for soon and work begun next spring.

Location notices for sale at the Bonanza office.
